PROFESSIONAL EXPERIENCE

Frontend Developer, Play Games24x7   **Oct 2023 - Present**

- Developing and maintaining reusable, scalable frontend components for **My11Circle** and **RummyCircle** using React and React Native.
- Writing clean, modular JavaScript/TypeScript code while following modern frontend architecture patterns tailored for large-scale gaming platforms.
- Collaborating with backend teams to integrate APIs and deliver new features across **My11Circle** and **RummyCircle** applications.
- Implementing smooth, optimized animations using React Native Animated to enhance interactivity and engagement on both platforms.
- Debugging and resolving issues across devices and platforms to ensure seamless functionality in real-time gaming environments.
- Managing global state with Redux and Context API to maintain consistent and predictable data flow.

PERSONAL PROJECT

CAALM (Android App)   **Feb 2023**

- Co-developed CAALM, a utility Android app aimed at simplifying daily campus life for Pondicherry University students.
- Built core features like real-time university bus tracking and a digital food ordering system for hostel and canteen services.
- Led app deployment to the Google Play Store and ensured end-to-end functionality in collaboration with a 4-member team.
- Received positive feedback from users during launch; app was later taken down due to maintenance constraints.
